

WHAT is the intent of this program?

The program helps business owners and facility managers of existing commercial and industrial buildings understand and evaluate **energy efficiency** and **renewable energy options**, including clean heating and cooling systems, in the natural gas moratorium area of Lansing, NY.

WHY participate in this program? What's in it for me?

- Receive advice from energy experts
- Understand options to save energy and operational costs
- Obtain advice on incentives, financing, and application processes
- Receive assistance with setting and reaching your energy goals
- Gain recognition for your participation and commitment, if desired
- Contribute to the environmental and energy goals of our community

WHO can participate in this program?

- Businesses and facility managers of existing commercial and industrial buildings
- Eligible sectors: commercial, retail, multifamily (5+ units), manufacturing, R&D, non-profit, government, institutional
- Building must be located in the gas moratorium area of Lansing, NY (County of Tompkins)

HOW can I participate? What does this program require of me?

- Participate in an energy charrette (brainstorming meeting)
- Set practical and aspirational energy goals for the project
- Participate in a program close-out meeting
- Identify a staff person as the energy point contact for the building
- Share building energy consumption data during participation and after project completion
