Tompkins County Renter Survey – General Population Protocol

The Survey Research Institute was contracted by the Tompkins County Planning Department to conduct a survey of renters in Tompkins County.

Two groups were surveyed—students from Cornell University, Ithaca College and Tompkins – Cortland Community College (TC3) and non-students. The students were surveyed via the web and the non-students were surveyed by phone. This report shows the data from the phone survey of the general population. A separate codebook will be provided for the web survey of students.

The random sample was drawn by Genesys Sampling Systems targeting renters in Tompkins County. Potential respondents were screened as to their rental status, student status, whether they are a decision-maker, and if they live in Tompkins County. If a respondent fell into any of those categories, they were deemed ineligible. A total of 380 respondents completed the survey, with a response rate of 41.9%.

Other - please explain..... @h**

Please rate the importance of the following factors as to why you rent. Use a scale of 1 to 5 with 1 being not at all important and 5 being very important.

- 10017 Being able to walk to various things
- 10242 Being a widow played a role for me.
- 10368 Moving back to my home country.
- 10377 I like being close to grocery stores and other stores.
- 10505 Our daughter is a student at Cornell so we live here part-time.
- 10528 The convenience to everything.
- 10597 It's a healthier environment. I thought I had black mold in my house that I owned. Two trailers. They deteriorate. I figured let's find an apartment. The landlord takes care of it, and it's a much better situation. New bathrooms, new counters, garbage recycling. It's all good.
- 10606 A recent divorce was a big factor.
- 10680 I lost my health insurance coverage and could not afford to pay for both my health insurance and my house. I sold my home.
- 10827 I want to know the neighborhood before buying.

- 11202 It's nice to be somewhere near my church, and it's really difficult to buy a house in Ithaca. All the homes going up are huge homes, way too big for a single person. It's a serious problem that there aren't any starter homes, for one or two people. The kind of homes that families used to move into before they had large families and kids.
- 11264 My grandson wants to go to a different school other than the district where his parents live so I rent a home so he can go to the school of his choice.
- 11318 I could not afford the taxes at my previous home.
- 11683 I don't drive and I don't have a car so I have to live very close to where I work and this is convenient.
- 11815 I rent because I plan on moving back to my native country.
